Bacto Acti-Plus[™]

Bacto Acti Plus contains a high concentration of probiotic bacteria for agricultural use. The content active, *Bacillus subtilis* can improve soil fertility, plant growth and the immune system to fight disease attacks. Bacto Acti-Plus is the result of R&D using isolated bacteria from local soil. It is a safe, effective and environmentally friendly technology product.

Liquid Application:

- Dilute 10g in L of chlorine-free water (1:100 dilution).
- Water it on the ground or spray it on the tree.
- Repeat application every 2-4 weeks to maintain good population of B. Subtilis in the field.

Product Composition:

Bacillus subtilis : 0.1 wt %
Talc : 99.9 wt %

Product Quality:

CFU :> 1.0 x 10⁶ CFU per gram

Soil/ Compost Application:

- Mix 100g of product powder in 10kg of soil/compost.
- Plow/sow on crop area, add with liquid application or compost every 2-4 weeks.
